FOUNDRY TRADE JOURNAL

INDEX TO VOLUME 154—JANUARY TO JUNE, 1983

A

Alloy Company choose Electric Melting, 509
Alternative Technology—an Unusual Aspect of Foundry Training in Mid-Wales, The Centre for, 222
Aluminium Casters, LMFA Research benefits, 72
Aluminium Industry gets Government Aid for cost-cutting, 614
Aluminium-silicon Eutectic Base Alloys, Effects of Silicon and Magnesium Additions on, 387
Application and Advantages of Automatic and Semi-automatic Ultrasonic Inspection of Iron Castings—a Review, The, 715
Applications of Hot Melt in the Coreshop, 714
Application of UK Sands to the Production of Moulds and Cores, 11
APV Process Urgent Order for Bahrain, 134
Ashworth's celebrate 50 Years of Speedy Testing, 485
ABBF hold Fortieth AGM, 821
Assessment of Dust and Fume in Steelfoundry Fettling Shops, 450
Audco Valves, Foundry Modernisation at, 25
Automated Greensand Moulding at IMI Bailey Birkett, 377
Automatic Pouring and Metal Distribution Systems, 151

B

Bahrain, APV Process Urgent Order for, 134
Baker Perkins produces Chemically-bonded Sand Knock-out Machinery, 647
Barton Abrasives hosts Overseas Agents, 614
Battelle Laboratories to carry out Ladle Metallurgy Research, 818
Birmid Qualcast make Parts for Leyland LM10, 349
Blast-cleaning Efficiency at Leyland Foundry, Technical Support Improves, 100
BMD Contramix cuts Mixing Times at German Foundry, 448
BNF to Promote Energy Conservation in Private Steel Sector, 275
Bolton Foundry Students' Prizegiving attracts Large Gathering, 561
Brake Disc Machining, Tool Material optimises, 102
Bringing Science to the Foundry Floor, 386
BCIRA: announces Spring Study Courses, 145; to merge with SCRATA Research Division, 208; publishes Welding Manual, 691; Seminar on Robots in Foundries, 767
BICTA News, 466
British Engines Limited, Diversification at, 361
BEL Foundry, Omega Mixer brings Quality Control to, 448
British Ronceray offer Moguloid Technology, Contract Casting Impregnation—, 524
British Rotary Furnace installed in Saudi Foundry, 309
Bury Firm cast Reproduction Shaft for Restored Waterwheel, 615
Butterley Alloy-casting Range, Induction Melting extends, 457

C

Carbolite Furnace's wins Queen's Award for Exports, 614
CO_2 Process aids Propellor Production, 96
Casting Impregnation—British Ronceray offer Moguloid Technology, Contract, 524
Castings Clinic in West of England, 575
Casting Shake-out and Retrieval—a Survey of Current Practice, 621
Castings Marketing Seminar held at Loughborough, 4
Casting the Falkland's Memorial, 591
Cast-iron Propaganda—the Lusitania Medal, 134
Centre for Alternative Technology—an Unusual Aspect of Foundry Training in Mid-Wales, The, 222
Chargehandling in the Melting Shop, 166
Chemically-bonded Sand Knock-out Machinery, Baker Perkins produces, 647
Chilled Camshafts boost Orders for Midlands Foundry, 273
China, Heat-treatment Exhibition to be held in, 430
Chinese Founders made Spheroidal-graphite Castings, 2,000 Years Ago, 352
Cleaning and Fettling—a Developing Technology, 825
Cold-box, Rotary Coremaker to be Marketed for, 712
Columbus acquires British Foundry, 486
Cooling of Sand and Castings, The, 777
Consortium acquires Forth Shipbreaking Yards, 694
Contract Casting Impregnation—British Ronceray offer Moguloid Technology, 524
Copper-rich Castings in Britain, 385
Core Blower gives Speedy Box-change for German Foundry, 711
Coremaker to be Marketed for Cold-box, Rotary 712
Coremaking Processes, Some Developments in Modern, 697
Cores, Application of UK Sands to the Production of Moulds and, 11
Coreshop, Applications of Hot Melt in, 714
Correspondence, 145, 486, 559
Crossness Engines remain a Silent Tribute to the Skills of the Victorian Foundryman. London's Cast-iron Masterpiece—, 98

D

David Brown to cast Pumps in Super Stainless Steel, 349
Defects in Castings—How to avoid Them, 648
Diecasting Metallurgy, Foundry Bookshelf, 795
Diversification at British Engines Limited, 361
Dundee College of Technology, Mini-caster installed in, 273
Dust and Fume in Steelfoundry Fettling Shops, Assessment of, 450

E

Education and Training in the Casting Production Industry Today, A Time of Change, 851
Education and Training in the Foundry Industry—a Guide to Courses for 1983/84, 848
Electric Melting, Alloy Company chooses, 509; improves Efficiency at Jobbing Foundry, 103
Electricity Supply Failure with Induction Furnaces, Coping with, 789
Electric Furnace Charging System installed at Steel Foundry, 449
Energy Cost-cutting, Aluminium Industry gets Government Aid for, 614
Environment—Some Aspects of the Work of HM Inspectors of Factories in Foundries, Towards a Better Foundry Environment, 211
European Castings and Forgings Exhibition: 205, 429, 558; 763
Exeter, Two Centuries of Casting Production in, 576

F

Falkland's Memorial, Casting the, 591
Ferrous Scrap Consumption falls in 1982, 272
Fettling—a Developing Technology, and Cleaning, 825
Fettling Shops, Assessment of Dust and Fume in Steelfoundry, 450
Fond-Ex, 83, 726
Forty-ninth International Meehanite Conference, The, 31, 232
Foundry Education and Training in Scotland, 843
Foundry Industry of South-West Britain, The, 563
Foundry Modernisation at Audco Valves, 25

FTJ—INDEX TO VOL 154, 1983

Foundry Warehouse to Art Gallery—Coalbrookdale Building now houses Elton Collection and Library, 482
Furnaces, Coping with Electricity Supply Failure with Induction, 789

G

Glynwed find Truck-hire an Economical Proposition, 105

H

HSE approves Gloves and Footwear Standards, 276
Heat Treatment Exhibition to be held in China, 430
HM Inspectors of Factories in Foundries, Towards a Better Foundry Environment—Some Aspects of the Work of, 211
High Alloy Steel Sector, Lazards arrange Rationalisation of, 558
High-speed Mixer, Steel Founder installs, 448
Hot Isostatic Pressing of Castings, A review of the Technology and Applications of, 228
Hot Melt in the Coreshop, Applications of, 714
Hydraulic Power System for Stanhope Plant, Stanton & Stavely order, 430
Huddersfield Foundry expands Production, 204

I

IBF: West Midlands Branch holds Affiliation Dinner; News 351; Slough Section hold Foundry Evening for Young People, 617; London Branch holds Junior Foundrymens' Evening, 693; 765
IMI Bailey Birkett, Automated Greensand Moulding at, 377
Impregnation: British Ronceray offer Moguloid Technology, Contract Casting, 524; Complex for Castings nears Completion, 485
Induction Furnaces, Coping with Electricity Supply Failure with, 789
Induction Melting extends Butterley Alloy Range, 457
Ingot Exports put Aluminium Foundry Jobs at Risk, 348
Inspection Equipment on view at Inspex 83, 305
Institute of British Foundrymen—Education Patterns and Professionalism, The, 845
Ionising Radiation, proposed, Comprehensive Controls of, 7
Ironbridge: holds Cast-iron Restoration Course, 69; Victorian Ironworks Complex will recreate Traditional Skills, 177

L

Lake & Elliot cast for Wind Generator, 430
Lazards: plan Steel-castings General Sector Rationalisation, 69; finalise Rationalisation Plan, 204; Arrange Rationalisation of High Alloy Steel Sector, 558
Leyland Foundry, Technical Support improves Blast-cleaning Efficiency at, 100
Loughborough, Castings Marketing Seminar held at, 4
Lusitania Medal, Cast-iron Propaganda—The, 134

M

Magnesium Additions on Strontium Modifications of Aluminium-Silicon Eutectic Base Alloys, 387
Meehanite Conference, The Forty-ninth International, 31, 232
Meehanite, Six-pounder gun cast in, 762
Melting Shop, Chargehandling in the, 166
Metal Distribution Systems, Automatic Pouring and, 151
Metals Advisory Centre gains NATLAS Accreditation, 112
Midland Foundry receives ASME Award, 690
Mini-caster installed at Dundee College of Technology, 273
Mixers: Omega Mixer brings Quality Control to BEL Foundry, 447; BMD Contramix cuts Mixing Times at German Foundry, 448; Steel Founder installs High-speed Mixer, 448
Moguloid Technology, Contract Casting Impregnation—British Ronceray offer, 524
Moulding at IMI Bailey Birkett, Automated Greensand, 377
Moulds and Cores, Application of UK Sands to the Production of, 11
Mulling and Mixing, Sand Preparation—a Guide to Current Concepts in, 433

N

NATLAS Accreditation, Metals Advisory Centre gains, 112
Non-destructive Testing and Control, 489
NDT Conference will cover Engineering Applications, 766

O

Omega Mixer brings Quality Consistency to BEL Foundry, 447

P

Patent Abstracts, 106, 857
Polish Foundry Technology, 71
Pouring and Metal Distribution Systems, Automatic, 151
Propeller Production, CO_2 Process aids, 96
Pump Manufacturer installs Revolving Drum Reclamation Unit, 296

R

Ramsell-Naber extends German Facilities, 276
Real-time Radiography speeds Quality Assurance at Fords, 505
Reclamation Unit, Pump Manufacturer install Revolving-drum, 299
Reverse-jet Filter cuts Dust in Foundry Sand Reclamation, 842
Robert Taylor Ironfounders, A Profile of, 75
Robot for Cleaning Castings, Swedish Foundry installs, 841
Robots in Foundries—a Report on a BCIRA Seminar, 767
Rotary Furnace installed in Saudi Foundry, British, 309

S

Sand and Castings, The Cooling of, 777
Sand Preparation—a Guide to Current Concepts in Mulling and Mixing, 433
Sands to the Production of Moulds and Cores, Application of UK, 11
Sand Reclamation, New Foundry invests in, 296
Sand Reclamation Revisited, 285
Sand Resources—A Survey, UK Foundry, 18
Scotland, Foundry Education and Training in, 843
Shake-out Improves Working Conditions, New and Modified Equipment at a Foundry, 636
Shake-out and Retrieval—a Survey of Current Practice, Casting, 621
South-West Britain, The Foundry Industry of, 563
Silicon and Magnesium Additions on Strontium Modification of Aluminium-silicon Eutectic Base Alloys, Effects of, 387
Spheroidal-graphite Castings, 2,000 years ago, Chinese Founders made, 352
Stainless Steel, David Brown to cast Pumps in Super, 349
Steel-castings General Sector Rationalisation, Lazard's plan, 69
Steel Founder installs High-speed Mixer, 448
Stanton & Staveley order Hydraulic Power System for Stanhope Plant, 430
Steelfoundry, Electric Furnace Charging System installed at, 449
Steelfoundry Fettling Shops, Assessment of Dust and Fume in, 540
Strontium Modification of Aluminium-silicon Eutectic Base Alloys, Effects of Silicon and Magnesium Additions on, 387
Swedish Foundry installs Robot for Cleaning Castings, 841

Continued on page 889

FTJ—INDEX TO VOL 154, 1983

Continued from page 882

T
Technical Support Improves Efficiency at Leyland Foundry, 100
Testing and Control, Non-destructive, 489
Tool Material optimises Brake Disc Machining, 102

U
Ultraseal International Limited, Recent Developments at, 523
Ultrasonic Inspection of Iron Castings—a Review, The Application and Advantages of Automatic and Semi-automatic, 715

V
Victorian Ironworks Complex will recreate Traditional Foundry Skills, 177

W
Waterloo Lion—a Rival to Reading's Cast-iron Sculpture, The, 68
West of England, Castings Clinic in, 575
Welded Repair of Castings, 512
Welding Manual, BCIRA publishes, 691

Precision Casting Supplement

BICTA breaks New Ground with R & D, 733
BICTA News, 49
Developments in Aluminium Alloy Investment Castings, 324
Dowty Precision Castings Well-equipped to Produce Aerospace Castings, 48
Dussek Campbell opens New Wax Production Plant, 44
GKN+Cosworth Process for the Precision Casting of Aluminium, The, 46
Investment Casting at PCD Vickers, 316
Investment Casting Foundry Utilises Heat Pumps, 48
Investment Castings used for Joint Replacement, 47
Lost-wax Caster thrives on Diversity—a Profile of G. W. Lunt & Son Limited, 738
UK Foundry Skills recreate Ancient Chinese Bronzes, 43

Diecasting Technology Supplement

Alumasc aid Design of Low-cost Mower, 869
Automation in the Large Foundry—Progress in the 1970s and an Outlook for the 1980s
Barton Aluminium, New Pressure Bay installed at, 869
Controlling Aluminium-alloy Melts for Diecasting, 661
Diecasting Society discusses Aluminium-alloy Casting Technology, 117
Grant Diecastings Limited—a Diecasting Foundry Committed to Defence Markets, 245
History of Fry's Diecastings Limited, A, 395
Ladle-tilter boosts Productivity at Diecasting Firm, 124
LMFA Gravity Diecasting Seminar Attracts Large Audience, 404
Zinc Diecastings used for Small-arms Precision Components, 125

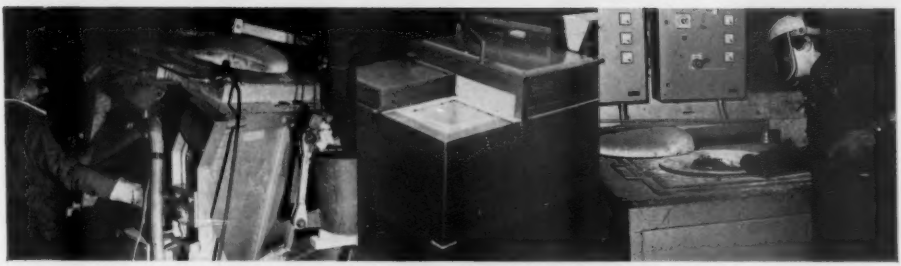
RAMSELL–NABER
ELECTRIC FURNACES
FOR MELTING ALUMINIUM ZINC AND BRASS



Bulk Melting *Low-energy Holding* *High efficiency Bale-out*

RAMSELL-NABER LTD.
22 Brookvale Trading Estate,
Moor Lane, Birmingham B6 7AQ
Phone: 021-356 8441 Telex: 335386

Don't delay – Contact NOW
Your foundry's future depends
on efficient melting and holding
– there's no real alternative to electricity.
